### **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the **Specification**:

In the Continuing Data on page 1 of the specification, please replace the Continuing Data paragraph, lines 5-10, with the following:

This application is a continuation-in-part of United States patent application 09/182,516, filed October 30, 1998, now [allowed] U.S. Patent 6,090,624, which is a continuation-in-part of United States patent application 08/973,553, filed January 22, 1998, now [allowed] U.S. Patent 6,183,735, which is the United States national stage of PCT International patent application PCT/FR97/00709, filed April 18, 1997, published as WO 97/40139 on October 30, 1997, which claims priority to French patent application 96/04964, filed April 19, 1996.

In the **Claims**:

Replace the Listing of Claims with the following:

**Listing of Claims:**

Claims 1-36 (cancelled).

Claim 37. (previously presented) The cell line IO/JG2/1, deposited under 1-1695 on April 18, 1996 in the collection Nationale de Cultures de Micro-organismes held by the Institut Pasteur, Paris, France.

The above amendment to the Continuing Data on page 1 of the specification was necessary to update the status of the parent applications.

The above amendment to the Listing of the Claims was necessary to make said Listing of Claims comply with 37 CFR 1.121 (i.e. status of all claims ever presented in the application must be listed).

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the mailing address of each inventor. A mailing address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing address should include the ZIP Code designation. The mailing address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

The Declaration filed 3/14/03 lists only the Residence of each inventor. While it appears that the Residence listed in the Declaration is the Post Office Address, the Residence **and** Post Office Address must be definitively listed under "Residence" and "Post Office Address" headings, respectively, in the Declaration. Also, the Declaration is defective in that it lists (on p. 2 of the Declaration) the current application (09/559,707) as an abandoned prior application.
